### **DETAILED ACTION**

1. Claims 1-3, 5-9, and 11-14 are pending for examination as interpreted by the examiner. The amendment filed on 10/20/06 was considered.

### **EXAMINER'S AMENDMENT**

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: The amendment recites two identical claims numbered 1. Thus, the first claim 1 has been cancelled.

### ***Reasons for Allowance***

3. The following is an examiner's statement of reasons for allowance: claims 1-3, 5-9, and 11-14 are allowed over the prior art because of the references cited in the record, considered in combination or alone, fail to suggest or fairly teach a method of erasing data by overwriting pits to be erased with a greater density of new pits overlapping each other so that each new pit erases the immediately preceding pit, the overlapping new pits merging with each other and the pre-recorded pit to be erased to substantially level the polymer surface to a level where the erased, pre-recorded bit is not detected that includes all of the limitations as recited in claims 1 and 7. All other claims are allowed with their respective allowable parent claims 1 and 7.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Cited References***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited references relate to methods of erasing data using local deformation.
